FROM :

Chief, Photographic Intelligence Division, CIA

SUBJECT :

Interim Evaluation of [REDACTED] Fly-Away
Light Table

1. We are currently evaluating the prototype [REDACTED] Fly-Away
Light Tables. One of these tables is being routed to PID Analysts and
their evaluations should be completed shortly. The other table was sent
to a PI who was deploying to an overseas station. In a recent cable
he stated "new light table travels well and is performing nicely on 50
cycles".

2. Initial response indicates that this light table will fill a
long required need for PID Analysts, particularly for those deployed
to overseas field stations for immediate readouts. We presently
anticipate the purchase of approximately 20 of these tables.
